bandits and held as hostages.

The avistors, Second Lieutenant L.

A Thomas and Sergt, Frank E. Dowell, at first were reported to have reached Jicaro after the crash, but Gen. L. M. Gulick today said that this report was erroneous.

The avistors, while patrolling the Quilail district in the department of Nuevas Segovia, crashed into a mountain near Mt. Chipote and the airplane burned. Both men were seen by another air patrol plane to run from it.

After the crash a patrol was sent out from Jicaro to search for them. Arriving at the scene of the crash the patrol was attacked from three sides by about 350 bandits. Severe fighting followed and four members of the National Guard were killed. The guardsmen finally cut their way out and returned to Jicaro without locating the missing flyers. Other air patrols have been sent out but no trace of the men has been found.

The rebels were said to have had the advantage of numbers and put the Federal solders to digit, sithough the insurgents received the greater loss in dead, fifty of their number falling on the field of battle. The Federal losses in that battle were placed at eighteen men.

Marching on the small farming town of San Nicolas, the rebels losted it and continued to Soyotian.

Here the townspeople resisted the statck, and apparently in revenge the rebels not only sacked the town, but tore down and set fire to buildings.

The Federal forces, reforming their lines and reinforced by members of the agrarian party, again met the rebels near Soyotian and this time were victorious.

Crispi again tried to approach the Vatican through Abbot Tosti, but falled both times because the moment was not yet ripe either for the intransigeants at the Vatican or for the anticlericals in Italy. MEW YORK, Oct. 18. (AP—Mrs. Virginia Haldeman, wite of the pilot of the American Girl, was "almost too happy to speak" today when she was told by the Associated Press that her husband and Ruth Elder had been received at sea after a broken oil line had forced down their plans.

Long hours without word from the flyers had plunged her into doubting despair, she confessed. She had been weeping through the night while she remained with close friends in her suite at the Walderf Astoria, but the flash that told of the rescue brought "the happiest moment of all."

THINKING—THINKING
"I tried hard to sleep and not to

"In one way," she said, "I felt they would make it, for thirteen always was George's lucky number. We were married on the thirteenth and when he entered the army as a figer in the war days he was thirteenth in line for the physical tests. When I remembered that today was the 19th I was more hopeful than ever.

"But just a thing like that never would carry anybody acroes an ocean. It was courage and ability and knowledge and careful preparations."

Mrs. Haldeman said her first set after making sure that the plane was safe was to send a telegram to Billy, her 4-year-old son at Lakeland, Fla. then there was another dispatched to her husband and Miss Elder on the Dutch steamer. Barendrecht, which picked them up.

"It has . . . all the 'punch' in the world a smart push in the back every time the accelerator pedal is trod upon. Throughout its whole range, the response to throttle seems to be precisely the same. 'Soft spots' are simply not to be found.

"But further, all this is accomplished without a vestige of that tinkle-tinkle business under the hood that Englishmen know as 'pinking' and American engineers as the gas knock, or detonation. Apparently this present Hudson engine just isn't going to 'ping' when the throttle is quickly opened, or when the car is driven hard against a hill.

"The Hudson motor does what it does on any old fuel at all, it is said, and assuredly does it on the run of the pump fuel that is sold at bees prices everywhere."

Washington, Cet. 13. (Exclusive)
Close political observers here see in the coalition of the Benata two things. First, there is a growing belief that these leaders and their associates from other less growing belief that these leaders and their associates from other western Bates will press from other western Bates will press from other western Statuses of their associates from other hands of the same and their associates from other hands of the same and their associates from other hands of the same and their associates from the heaves of their management of a same the first of next June, when Congress will adjourn.

The other outstanding feature in this Republican insurgent bloo is acertain shock to the plann of Vices President. Daws to inherit a face from the picture of national politics. Certain of the Western States that can be influenced by Borsha and Norris will not be for Dawse under any circumstance, and that is disturbing to some of those who have expected that he would be the strength once he is eliminated. Political leaders also were discussing with enthusiasm today the broadcast of all the Scripps-Howard papers in favor of Hoover for the Republican standard beaver and Smith for the Democrate in 1928. farm-relief bill before spring brightens.

A cynic might observe that herein history is repeating itself. When the Republican party came into power in 1921, the embattled farmers of the West were demanding tariff advances in their interests. Congress gave them practically all they asked in the Farmers' Emergency Tariff Act, the rates of which later were continued in the permanent tariff law. This was hardly accomplished, however, before the political leaders of the agricultural section dropped the word tariff from their vocabulary and raised a new cry of the farmer for another form of farm relief. This crystalized subsequently and after a fashion into several bills, the Mc-Nary-Haugen among them, the common feature of which was the crea-

The sort of bill that is expected to be produced is one creating a Federal farm board appointed by the President, to collect crop and markst information, to encourage the formation of co-operative selling agencies and with the aid of government appropriation in revolving funds to lean to such agencies the money needed to finance orderly crop movements. The bill will be founded on the principle of encouraging and aiding producers of any given crop to band together, but there will be nothing in it of subaidies, bounties or government pricefixing.

Savant Denies

BERKELEY, Oct. 18. (IP)—Dr. William Frederick Bade. noted archeologist, today disavowed statements attributed to him in a printed notice erroneously attributed to the University of California, saying he had found evidence in excayations in Falestine which "put to rout common belief of fundamentalists that the Bible should be taken literally."

Dr. Bade said that while his findings do not disprove the Bible story of the massacre at Mispah of the Cananites by the Israelites, as the printed notice quoted him as announcing, they do indicate that the two peoples lived side by side there.

DETROIT. Oct. 13. (P)—John C. Lodge. drafted candidate who received the nonpartisan nomination for Mayor it. Tuesday's primary here, by an overwhelming majority, last by an overwhelming majority, last inght confined his after-election statement to that if elected, he will hew close to the lines that are for the right and against the wrong.

"I have no promises and have no platform," he said, adding that he intends to be guided solely by the code of principles that has governed his life.

Mr. Lodge, who is a granduncle of Col. Charles A. Lindbergh, occupies the unique position of having served as acting Mayor of Detroit at various times over a period of twenty years for a combined total of nearly eight on the self. The public has a right to see an unique position of having served as acting Mayor of Detroit at various times over a period of twenty years for a combined total of nearly eight. On many occasions Mr. Lodge has been suggested as possible candidate, holding firm to the belief that candidates for public office should be sought.

Mr. Lodge, a former newspaper man, is vice-precident of a lumber company here. He is unmarried.

Demurrer Filed in Will Contest

REDWOOD CITY, Oct. 13. (P)—Superior Judge Buck today received a demurrer filed by Attorney Garrett W. McKnerney, representing the James L. Flood estate heirs, holding that Mrs. Constance May Gavin, who claims a daughter's share of the \$18,-000,000 estate, has not proved the legitimacy of her birth. Judge Buck announced he would give his answer to the demurrer the 20th inst. Attorney Alex O'Grady of San Francisco, representing Mrs. Gavin, opposed the demurrer on the grounds that his client had proved everything abscessary to support her claim for a daughter's share.

This action today was believed by intersected observers to be a closing chapter of Mrs. Gavin's long fight for a share of the late San Francisco millionaire's estate. Depositions have been taken in Redwood City during the last several months from Mrs. Eudora Forde E. Willette of Cakiand, who asserted she was Mrs. Gavin's mother and that Flood was the father.

The heirs attempted to prove that

Gavin's parents were Mrs. Wil-and her former husband, Ed-bearn.

The organization includes dealers of Tulare, Kinga and Kern counties and was represented by twenty-five members. BAKERSPIELD, Oct. 13.—Masonic funeral rites for Clarence Seymore Green, 59 years of age, Marlcopa Mayor and prominent trucking contractor of the west side city, were conducted this atternoon at the Bakersfield Masonic Temple by officers of the Marlcopa order of Masons. Rev. C. H. Hulme, pastor of the Pirst Christian Church of this city, delivered the eulogy. Burial was in Union Cemetery and arrangements were in charge of Payne & Bon mortuary. Many friends and relatives paid last tribute to the Kern county pioneer who came here thirty-eight years ago, and for twenty years had been a resident of Marlcopa, where he was serving his third term as Mayor. In addition to his prominence in civic and business affairs of the west side compunity, Mr. Green was active in fraternal and church circles. COTTON COMPANY DEMANDS DAMAGES

Early Morning Blaze of Unknown Origin Damages Old County

Fire of Unknown Origin Which Started in Carpenter Shop in the basement of the old County Jail early yesterday morning damaged the structure to the extent of \$5000. The blaze was discovered by a night watchman and checked by fire fighters before it had gained much headway. Photo shows caved-in floor of old jail. (Times photo.)

The Woman Pays in the Scott Case—Mrs. Russell Scott, widow of Illinois murderer who cheated the gallows by hanging himself in prison, is here shown with the picture of the man for whom she has fought so valiantly through three long years. (P. & A. photo.)

A New Sport Replete With Both Thrills and Spills was introduced at the n Orange county motorcycle meet at Huntington Beach by J. E. McDeel Santa Ana. The sport is similiar to aquaplaning, the difference being the performed on the beach instead of in the water. The above photos of McDeel and his plane were taken while he was traveling at speed of sixty miles at (P. & A. photos.)

First Deer From Kaibab National Forest in Arizona to reach Los Angeles was brought in by A. A. Beaty and registered in the heaviest deer contest at the B. H. Dyas Company. Beaty stands a chance of topping the list as his buck tipped the scales at 220 pounds.

The Initial Gesture in the Manufacture of a Four-Ply Swat by that master artist, George Herman Ruth, is caught in the above unusual action photo. An instant after this speed shot was snapped, Mr. Ruth's bat met the ball with a resounding smack and lifted it into the bleachers for one of the famous sixty home runs. (Paramount News photo.)

Thousand-Dollar Oysters Don't Come Often, but they occasionally pop up, as Adma Warmuth, a New York oyster shucker, can testify. Adma opened a process a process of the population of the popula prosaic appearing bivalve the other day and found a pearl which he later disposed of for \$1000. Adma, oyster and pearl above. Another factor is that KOTEX is scientifically permeated - under a process applied to no other sanitary pad-with a highly effective deodorant.

That means that Kotex deodorizes thoroughly and absolutely as it acts. Which banishes another old-time fear of women.

More than a "sanitary pad"— True, Scientific Protection

Kotex comes as the result of years of scientific experiment.

It is made under hospital standards of sanitation and safety.

It embodies scientific protection that is sure and positive . . . features unknown to any other sanitary accessory in the world today.

IMPORTANT!

Why gamble with substitutes hospitals have tried and rejected?

More than 75% of all recognized hospitals in America use Cellucotton absorbent wadding in their surgical departments — the same material that is used exclusively as a filler in Kotex

Many hospitals have tried substitutes for Cellucotton wadding, but have returned to the exclusive use of this marvelous absorbent, which towers above all low-quality absorbents.

Good hospitals and reputable surgeons take no chances with their patients. V. ly then should you allow any merchant to substitute a pad made of inferior material when you wish the only original

In spite of cheaper substitutes, hospitals have purchased at regular prices 1,441,152 Kotex pads this year for their patients. Doctors insist on Kotex for patients. Will you accept less?

American Bankers' Association May Express Ideas on Rediscount Policy; Coast Delegation Large

BY EARLE E. CROWE.

Unlike the convention of the American Bankers' Association held in Los Angeles a year ago, the chances are that the annual meeting in Houston,

complaint against rates on grapes from New York and Pennsylvanis producing triftery to refincipal consuming cen ers was filed today with the Interstate Commerce Commission by organizations of growers. The governments of both States joined with the agriculturists in asking for reductions.

When York, Oct. 13. (A)—The larger eastern cities are now on a relatively lower basis than the rates from New York and Pennsylvanis, the complaint asserted. Further, it was declared that the eastern grape growers had encountered a depression in their industry during recent years and that Congress by special resolution and required the Interstate Commerce Committee on strangements for the stock ticker. Recent fluctuations in bank stocks had aroused growers had encountered a depression in their industry during recent years and that Congress by special resolution and required the Interstate Commerce of St. Louis, as second vice-present fluctuations as second vice-president.

Dated October 31, 1891

Due November 1, 1931

Interest payable May 1 and November 1. Denomination \$1,000. Authorized and outstanding \$150,000. These Bonds, in opinion of Counsel, are non-callable. Principal and interest payable without deduction for any United States Tax which Company or Trustee may be required to pay.

The Farmers Loan and Trust Company, New York, Trustee

This company is incorporated under the laws of the laws of New York. It owns and operates, without competition, approximately sixteen miles of standard-gauge railroad, between Dansville and Mt. Morris, New York. These cities are in the Genesee Valley, where are located several important industrial plants, among them being the Power Specialty Company, the Carso Paper Company, the F. A. Owen Publishing Company, and the Blum Shoe Company. In addition are found twenty-one nurseries, five of which are among the largest in the country. The land along the entire line of the company is well adapted to farming and stock raising. These, together with other items, give the railroad a well diversified source of revenue.

These Bonds are the only funded debt of the Railroad and are, in the opinion of Counsel, an absolute first mortgage on the entire property of the Dansville and Mt. Morris Railroad. This road was recently appraised by independent engineers as having a value substantially in excess of two and one-half times the amount of these Bonds.

The management of the Railroad is under the supervision of Mr. E. M. Harter, one of the outstanding men in the field of short-line railroad operations.

CONNECTIONS AND OUTLOOK

The Dansville and Mt. Morris Railroad at the present time connects with the Eric Railroad, Rochester Line, at Mt. Morris and is so located that connections can be made just south of Mt. Morris by the laying of slightly over one hundred yards of trackage on an old right of way, where connection was made several years ago. About two miles further south, the line parallels the Delaware, Lackawanna & Western Railroad, and at one point, by the construction of a small bridge, a connection could be made by building less than one hundred yards of trackage. To the south, a distance of a few miles, connections could be made with several trunk line east and west railroads. However, the terrane of the country permits no com-

In a report of independent engineers, it was stated that in their belief, the Dansville and Mt. Morris Railroad could handle approximately twice the amount of freight that it is now handling with very little increase in expense. At the present time efforts are being extended in this direction to interest several industrial plants in locating at Dansville, where conditions are very favorable, due to cheap land, water power and labor. With respect to all these factors the present companies operating at Dansville find conditions to be excep-

BUY BONDS THAT EXACTLY FIT YOUR OWN NEEDS

DO YOU select your bonds by rule of thumb? Do you look for the three or four standard essentials and let it go at that? Any good bond must offer security of principal, certain and prompt payment of interest, adequate diversity, and a broad market.

THE IMPORTANT consideration for you is to select bonds that meet these require-ments and at the same time exactly fill your own personal needs. What securities you already own, the provisions of your will, the amount of income tax you pay, whether or not you are actively engaged in business. These are matters that apply to you alone and are important factors in selecting good bonds that exactly suit your own needs.

IT IS our business to sell good bonds that fill the requirements of our clients.

And every one a good sound

Cremation Plans Suddenly Halted by Coroner

Wagner Fails to Find Proof of Natural Cause

A mystery element yesterday was injected into the death of Mrs. Marion Hallenbeck Wall, wealthy and thrice-married member of a pioneer New Jersey family, as County Coroner Nance abruptly halted plans for the cremation of her body and ordered a chemical analysis of the vital organs.

vital organs.

The body was to have been cremated Wednesday, two days after the woman's death, immediately after the funeral, which took place as scheduled. But the remains are awaiting disposal at the Le Roy Bagley mortuary pending the outcome of the chemical inquiry by County Chemist Abernathy.

Mr. Wall could not be reached at his home las: night for a statement and pending the conclusion of the chemical avalysis, Coroner Nance is withholding orders for an inquest.

James Baker Bogart, 2½ years of age, som of Dr. and Mrs. Bogart, 960
East Dryden avenue, Glendale, will have natural rights, upon reaching manhood and whiskers, to have aversion for the popular safety razor.

Jimmy's specific reasons for this aversion will be the fact that the blades for these razors, disposition of which has caused the Fullman company to build safety razor blade compartments in all cars and has caused even the parent of the instrument, or implement, considerable thought, are not edible.

Bome days ago Jimmy came across a discarded blade that had accumulated considerable rust. Being the age he is and but recently experimenting with the use of an exceedingly good set of teeth, said teeth and razor came together. The teeth won and Jimmy bit a chunk off the rusty, discarded blade. Mrs. Bogart rescued the major portien of the blade from the mouth of her son, but Jimmy managed to swallow about one-quarter of the erstwhile whisker remover.

A physician was immediately summoned, and in order to avoid if possible what appeared like an imperative and serious operation, the physician put Jimmy on a particular diet. The lad was fed plenty of oatmeal, potatoes and like food, with the re

The City Council yesterday start-ed looking for somebody who will donate a site for a municipal air-

Hall, who proposed the idea. "There was the donation of Grifffith Park. San Francisco has received many donations from public-spirited citizens."

The Councilman put through the Council a formal resolution asking for a donation of an airport site and also coupled with it a plea for lower prices for land. He said the city's unused bonding capacity for general purposes is but \$8,000,000, that the city's general funds are low and that most of the prices for the land in the innetteen offers of sites under consideration are "much too high," in some cases \$5000 and \$6000 an acre. The Councilman said Oakland paid only \$800 to \$900 an acre for its airport site and that Clevaland paid \$1000 an acre.

"Civic pride," said Councilman Hall, "may cause someone to come forward with a donation of a field and may cause substantial reductions in the prices now placed on land."

The other Councilmen, shaking their heads and viewing dublously and doubtfully Councilman Hall's optimism, adopted his resolution after a motion that the resolution be sent to Santa Claus had been had some a succeeding to Continued on Page 2, Column 7)

And since that time, now nearly twenty years ago, Mr. Barry, a wealthy mining and oil man with headquarters in San Francisco, has never visited Alaska, although he still has extensive holdings in the Yukon.

"Although I no longer have an active part in mining operations in Alaska, those sea disasters may have something to do with my prolonged absence from Alaska," he said, laughingly, yesterday at a suite in the Biltmore where he is stopping for a few daya."

Mr. Barry came to Los Angeles to attend the wedding of his niece. He said that many of the gold mines in Alaska are practically shut down now because the selling price of gold has remained fixed while production costs have increased more than 50 per cent.

typically inconsistent in its attitude of op-position to the Sherman antitrust law and position to the Sherman antitrust law and to the Clayton antitrust law when they are applied by the courts to labor organizations, and of enthusiastic support of those laws when they are applied by the courts to capital. This is the more remarkable, since the Clayton Act was passed principally at the institution of Samuel Courses and Course instigation of Samuel Gompers, and Gompers once referred to it as "labor's Magna

That this attitude is a completely selfish one can readily be demonstrated by dispassionate examination and analysis. To make nch an analysis complete would take several pages of this newspaper. It may be stated in a nutshell, however, that what the American Federation of Labor really demands of Congress is that it shall be set free of all restraints whatever, and that it shall be empowered specifically to make use of the sympathetic strike, the coercive boycott, violence, intimidation and all the various other devices by which innocent third parties may be brought into or involved in a labor dispute.

The federation does not state its purpose so baidly; it prefers glittering generalities; but it is plain from Congressional and couridiscussion that that is what it wants, because it already has everything to which it

s legitimately entitled. The Sherman law prohibits, as everybody knows, unreasonable restraint of trade and competition. The Clayton Act clarified and construed it by declaring that labor unions, so long as they kept to lawful channels, could not be classed as conspiracies in restraint of trade or competition. Mr. Gomp-ers ignored the all-important qualification when he rejoiced over its passage and led his fellow-unionists to believe that an importan' victory had been won. This self-delusion continued until the United States Suprems Court decided the Duplex Printing

Company case.

There were four principal manufact There were four principal manufacturers of printing presses, three of which had come to terms with the machinists' union. The Duplex company continued to run an open shop. To compel the unionisation of this shop the machinists' union called a strike, but only eleven Duplex machinists quit work, and the factory continued upquit work, and the factory continued un-hampered operations. This failure impelled the institution of a boycott, particularly in New York City. Purchasers of Duplex presses were threatened, trucking com-panies were intimidated so that in some cases they refused to haul the presses, and efforts were made to prevent the setting up and operation of the presses when delic-

The union was not forbidden to attempt, by peaceful means, to persuade Duplex employees to join the union or to strike, and the only ground organized labor has for complaining of the decision is that the court recognized the right of the Duplex company to exist and conduct its business, a right which the federation was unwilling to concede.

They missed by chance the fate that has claimed so many equally daring air adventurers. The breaking of an oil line forced them down.

Since they lived through their experience they may be able to give some valuable pointers which will permit other fivers to cross in more safety, and their trip, by that much, will have been worth while. It has been impossible to analyze the cause of the failure of the other planes that were lost at It is vastly important that all this be acsea, so that these have not been useful except as they have emphasized the hazard and led to the adoption of greater caution. A flight of equal duration over land might, of course have given the same information; but on the other hand it might not. No amount of theorising and assumption of conditions can give as valuable data as Big Insurance Rodman Wan

To call for volunteers to take such risks, except in time of war, is a thing no civil-ized society would do. But no such call was made. Miss Elder and her pilot insisted upon assuming the risks, and for any aid they have been to aviation, civilized society owes them thanks.

HO'LL be the heroes of the "Battle of Palo Alto". It was Mike Murphy and Ernie Nevers who starred in the Cards' thrilling 13-to-9 victory over the Trojans in 1925—Nevers for his line plunging and his punting and Murphy for his 35-yard run to a touchdown.

Last year it was Bogue and "Cocky" Dick Hyland, who shared honors in Stanford's feverish 13-12 win—Bogue by paving the way to Stanford's first touchdown through a simply marvelous in-

amount of material there, and some of it quite talented, albeit green.
Greenness will be the biggest handicap of the Trojans. Jones has plenty of material; big, beefy boys, lacking experience. They showed plenty of fight against the Oregon Aggies, and just that same sort of battling quality will be needed if they hope to win-tomorrow. Certainly the team is prepared to fight its greatest battle. A natural rivalry, two successive defeats, and "Cocky Dick" Hyland's recent debut into authorship, have combined to put the Trojans in a fighting pitch, and the results should be interesting, to say the least.

Jones, as usual, is making no predictions as to the outcome. "This is too big a game, between too well-balanced teams teams, to try to pick a winner." he said. "The Trojans are in good shape, we have a number of, good football players, and we will do our best." The same can be said for Stanford.

News that Hyland would not start the game, giving way to Wilton, occasioned some surprise, and a bit of disappointment at U.S.C. yesterday. Wilton will be remembered as the young man who got a kick blocked in the Alabama game New Year's Day, thereby allowing the Southerners to tie the score.

Warner is as well, or better, equipped with backs than is Jones. As a starting lins-up he has Poet, Hill, Wilton and Hoffman. Then he has Hyland, Fleischacker, Murphy. Simkins and a host of others too numerous to mention, ready to turn loose at any and all times. His line is admittedly more experienced than the Trojan forward wall, the loss of Shipkey and Walker at ends doing the most damage.

These men were in the regular line-up yesterday afternoon as the Trojans took their final gallop about Bovard Field. If any shift is made it will be Barragar for Fox at center. The sophomore pivot man showed up exceptionally well in practice during the past week and is tossing the hall back with greater accuracy than ever before. Jones will need good center work, as the Trojan snappers will be opposing Hal McGreery, newly elected captain, who naturally is anxious to lead his squad to victory in his first attempt.

All of the student and alumni football specials for Falo Alto will depart Friday evening at 9:30 p.m. from the Southern Facific Station, Fifth and Central, instead of from Exposition Boulevard and University avenua, according to announcement made today by officials of the realization and of the University of Southern California.

The change in departure of the four special trains was necessitated by traffic conditions on Exposition Boulevard and University avenua, according to announcement made today by officials of the resiling to the specials there, as planned.

The game has developed the greatest railroad traffic on record for a football game for so great a distance. In addition to the four football specials for students and alumni, the Lark will be run on two sections Friday night and all other coast trains of the north will have extra cars in order to ease for the rush of traffic.

All northbound trains Saturday morning will stop at Palo Alto to detrain football fans, and all south.

similar. Each has exactly the same importance in its own particular conference. It would be going pretty far to say that the winner of either game was a pretty sure bet for the title, but it is certainly not going too far to say that the winner of each game will be the team that has to be beaten for the champion-ship. The winner of the Palo Alto game will have quite a chore to finish the conference race unbeaten, but it, will at least have a running start. The same thing is true of the Coll-seum game. There is something of a similarity, even, between the teams. Two of them, Stanford and the Bruins, defeated their rivals last year. Both the Cards and the Bruins have an unusual number of veterans back. Each has a man who must be stopped to win, in Stanford's case Hoffman and in the Bruins' case, Fleming. Both the Cards and the Bruins are favorites to win, but by a very slight margin. On the other hand, the Trojans and the Tigers, while they are short-enders, are granted a mighty good fighting chance to win.

While we're on the subject of football we'd like to rise to remark that the Oregon Aggies ought to make it more than interesting for pretty nearly any-body they should meet this year. That Aggie line had all the appearance of being as good a line as we've seen in a long, long time and the comparative weakness of the Aggie backs possibly was due in some degree to the absence of Avrit, the demon full-back. At that he certainly couldn't have played a better game on defense than his substitute did.

The Aggies appear to be in for a lot of good football seasons

CARDS FINALLY

McCreery Las always been at his best in the tough games and as this tussie with U.S.C. is in that class. Capt. McCreery may be expected to shine. He certainly did a man's job when helping Stanford beat the Trojans last year.

They are still beating the tomtoms down south when the name of Dick Hyland is mentioned. Dick is as popular as poison cak with the U.S.C. fellows since he mentioned in a fiction story that a halfback named Morton was dumb. He was supposed to be referring to Morton Kaer, and as Kaer is U.S.C. forst and only selections.

FUMBLED PREQUENTLY

FUMBLED PREQUENTLY

One wise cracker says the Alabama boys felt like voting Hyland a big "a" for his wrik in that game. He fumbled four times and had it not been for the alert Ted Shipkey two of those fumbles might have been disastrous to Stanford.

If the U.S.C. fellows concentrate on Hyland, they may find that some other Stanford man has the ball and that will be just too bad. Hyland will probably not start the game Saturday, but it is almost a clinch that he will get in the hattle some time. Ed Walker and Ted Shipkey, Stanford ends last year, outclessed any flank men on the coast. They were both great competitive athletes and at their best in emergencies. It will be a long time before a team has another pair as good. Saturday Stanford will have two green men on the ends, Preston and Davidson, and it is a safe bet that the Trojans will test them early.

BIGHT OR LEFT

BIGHT OR LEFT

Last year Kser invariably ran to his right and so did Don Williams. Drury did not carry the ball against Notre Dame because of his trick knee and he did not play at all against California. They say Drury can run equally well either to right or left, so that makes him more dangerous. He is not as fast as Kser, but he is said to be a much stronger runner and he is hard to bring down.

U.S.C. has a good running attack, with plenty of men to furnish powerful interference, so the Stanford ends will probably have a hot afternoon of it. Preston and Davidson are big, strong kids, with plenty of the old intestinal fortitude, so they may rise to great heights. BIGHT OR LEFT

Although the "breaks" were about even last year, Stanford had the best of it in 1925, so it may be U.S.C.'s turn this year, just as it was the last time the Trojans played at Palo Alto—in 1923, when the Trojans blocked a whole flock of Ernie Nevers's punts and won, 14 to 7.

Two years ago it looked like a U.S.C. victory or at least a tie game when one of Nevers's punts was blocked on the 5-yard line, and the ball bounded back across the goal line. With three or four Trojans in pursuit against Don Hill for Stanford, the leader—a U.S.C. man—slipped and Hill retrieved the ball for a mafety instead of a touchdown, and Stanford won, 13 to 2.

Since Stanford returned to American football, following a long filtration with rugby—from 1906 to 1918 to be exact—the Cards and Trojans have met six times and the Trojans have the edge with this exception: No U.S.C. team has ever licked a Warner-conched Stanford eleven. In 1919 Stanford, coached by Waiter Fowell, was beaten by the Trojans o nold Bovard Field, 13 to 0, and in 1920 at the same spot by 10 to 0. There was no game in 1921, but in 1922 U.S.C. journeyed to Palo Alto and won a tight game, 6 to 0. The Trojans repeated at the same spot the following year by a score of 14 to 7, but in 1923 the "Big Three" break was on, and the Cards and the Trojans did not meet. The last two games have gone to Stanford, 13 to 9 and 13 to 12, respectively.

and Kaer with a total gain of 114 yards from the scrimmage line, were the outstanding stars for the locals.

The old story of Jack Dempsey ready to resume relations with Jack Kearns has popped up again. There have been various third parties in the past, all reported to have the quarrel patched up, but nothing has ever come of the reports, so it looks as if the last one is just as much of a fairy tale as its forerunners.

Once it was Kearns's mother who had them together again, then it was a mutual friend, Senstor (Wild Bill) Lyons, etc., etc. Now it is Bill Duffy, New York fight manager and cabaret owner who was in Dempsey's corner at Chicago, acting as the go-between. The stories make good reading, but when Dempsey arrives today be probably will register just as emphatic a "no" as in the past.

I note that Dempsey has made a speech in which he said Dave Barry sent him to the wrong corner at Chicago. He's right. The Illinois rules as well as the Marquis of Queensberry rules say a man who knocks an opponent down shall retire to the farthest corner. As Tunney was knocked down in Dempsey's corner the latter therefore should have retired to Tunney's corner corner the latter therefore should have retired to Tunney's corner across the ring, but Barry herded him along the ropes into one of the price of the corner.

Club, led by Mrs. Gregg Lifur, twice Southern State champ, picked up a fast 8-to-1 victory at the expense of the visiting Ranchoites yesterday, in the feature clash of the woman's auxiliary golf team league.

Playing with Mrs. C. W. Fellows, Mrs. Lifur starred to score three ways in the match with Mrs. Charles Owens and Mrs. E. A. Bellew.

Flintridge, in the second division, invaded Oakmont and barely managed to mose out the home club defenders, 5 to 4. Mrs. W. W. Campbell established Bel-Air in the running by leading her charges to a 5-4 win at El Caballero. Wishire managed to score a 5-to-4 win over Hollywood in the other auxiliary match decided yesterday.

Complete results yesterday, were as follows:

Building Decree Propose to Check Ravages

No Cause for Hysteria Seen in Situation Here

Emphasizing the fact that there is no cause for hysteria in the ter-lite altuation in Southern California,

doing to combat the inroads of the insect.

He explained that there are two types of termite—the burrowing or subterranean which always must remain under cover and is dependent upon moisture from the ground, and the flying an', which attacks wood from the outside. Of these two the subterranean is by far the more destructive and he said that during the past year the government has expended more than \$100,000 in repairing improperly constructed buildings which have been attacked by these termites.

WOOD HONEYCOMBED

The insect's honeycomb the wood.

Dr. Snyder said, eating out the soft parts first and leaving it just like paper that can easily be crushed in the hand. Wood can be used safely, he said, but never in direct contact with the ground, and in most cases it is not the material used that is at fault so much as the manner in which it is used.

In the Pacific Coast Building Of-notals' conference to be conducted at Phoenia, Aria, from the 18th to 21st inst., Dr. Snyder said it is hoped to adopt three provisions in a mandatory decree for builders as well as to ofer advice based on the investigations and tests made by the Department of Entomology.

RADIO LICENSE TIME UP TODAY

No Changes Contemplated on Pacific Coast

Mountain Stations Forced to Divide Time

New Soloist Introduced to Audience of KHJ

BY DR. BALPH L. POWEB Today is the last day for the sixty day operating licenses for stations from the Radio Commission. Confrom the Radio Commission. Contrary to the close of the previous sixty-day periods, there are to be few changes tomorrow, less than twenty-five in number, and none of these is on the Pacific Coast.

The only change in policy contemplated by the radio body in the near future is a further crowding of certain wave lengths by stations that are required to divide time, in order to clear other frequencies for stations that are doing "a better job." according to Commissioner H. A. Bellows.

according to Commissioner H. A. Dellows.

The fall season is causing better long-distance reception and consequently more cleanes between stations located far apart and operating on the same wave lengths. The radio group is anxious to clear the waves on which the stations giving the highest type of public service are operating. "These are largely the stations of higher power, for they were granted increased power because of their merit," said the Commissioner.

END TASK MARCH 4

This means that stations of low power must be bunched together on the same waves. Where they are far enough apart their low signal strength will not create interference. Where they are close together they must divide time. This is the work of the Commission and it proposes to do it between now and March 4, 1928 when the group becomes a quasi-judicial body, turning its administrative duties over to the Department of Commerce radio division and Chief Terrell.

The changes to be made effective tomorrow are mostly in Chicago, St. Louis and Cincinnati. The commission also has ordered a sweeping change in the situation of eleven Denver stations, effective November 1.

The shake-up has been due for some time and follows the public hearings of last month in hopes of clearing up the wave band congestion in the mountain States. KOA, ander the change, will use 5000 watts to 6 p.m. and thereafter but half that amount; RLZ moves from Denver to DuPont; KOW and KFEL are given a frequency of 1210 kilocycles and 250 watts power and are ordered to share time.

These changes are hoped to clarify the Colorado situation and are the only changes at present which will be of interest to Pacific Coast radio fans.

Realty Man Will Talk in Many Cities of Country for National Organization

Harry H. Culver of the Los Angeles Realty Board is leaving soon to fill numerous speaking engagements in the interest of the National Association of Real Estate Boards. His itinerary will include Chicago, Detroit, Philadelphia, Pittsburgh, Buffalo, Cincinnati, Toledo, Indianapolia, Kansas City, Louisville and Denver.

When addressing members of various Chambers of Commerce Mr. Culver will dwell with emphasis upon the justification for adequate airpiane landing facilities, not only in one locality of a city, but will point out that every active center should be surrounded by airports to accommodate the rapidly increasing number of airline travelers.

This series of speaking engagements has been arranged in the interest of the realty men, but it is understood that Mr. Culver's interest in the development of commercial sviation will come in for a good share of his remarks. Harry H. Culver of the Los Angele

rendition, as well as with inherent feeling.

The Scarpia of Antonio Scotti is still a great Scarpia—perhaps even the greatest. In voice—no; in acting—a littie too theatrie at times to satisfy a more reserved mode and manner of the stage, but in the spirit of its tradition superlative. Scotti puts his mind as well as his heart into this portrayal, and though the timber of his tones is uncertain, and irregular, he covers this deficiency with a hort of tricks and subtleties. He recreates the character.

Scotti did not gain the cheer and the brave for his performance, but he enjoyed a tribute that was fitting. ANGELENO WINS SUIT ON PATENT

Claude Neon Lighting Case Decided in East Favorable to Coast Interests

Information to the effect that Judge Campbell, United States Dis-trict Court, sitting in Brooklyn, rendered a decision sustaining as valid the Claude Neon lighting patents cov-

trodes, was received in Los Angeles last night by Paul D. Howse, president of the Electrical Products Corporation, Pacific Coast owner of the patents in question. The patents in question were issued by the United States Patent Office in 1915 and have been the subject of gonsiderable litigation from Atlantic & Pacific. Various suits for asserted infringements now are pending in California and Washington and Mr. Howse states that this will be vigorously prosecuted and possibly injunctions sought on the strength of Judge Campbell's decision.

Mr. Howse further states that the battle has been waging in the Brooklyn court for more than a year and the decision is held a complete victory for the Claude patents. The main patent is held all the battle has been waging in the Brooklyn court for more than a year and the decision is held a complete victory for the Claude patents. The main patent is held a complete victory for the Claude patents. Husband Who Refused to Bridge Expert "Perform a Reconciliation Party" Freed by Divorce

COLLEGE TO INSTALL **NEW CHIEF**

Dr. E. J. Jaqua Will Be Inaugurated President of Scripps Institution

Elaborate ceremonies will be conducted today at Claremont at the inauguration of Dr. Ernest James Jaqua as president of Scripps College, the new women's unit of the Claremont institution.

The inauguration, which takes

Urges Test of New Systems

A new convention of marital discord was revealed yesterday in Judge Bproul's court. It was contended that if a husband refuses to "perform a reconciliation party" it is evidence that he does not care for any reconciliation.

When Peggy Rennee, witness in the suit of Medora Stevens for a divorce from Judson B. Stevens, began to talk about reconciliation parties, Judge Bproul was puzzled.

"What is a reconciliation party. Let's start from the first and find out about this?" he demanded.

"Oh, you see, Judge, they are the very latest thing." Miss Rennee explained. "You invite all your friends who are estranged from their husbands, and all their husbands, and you try to get everyone to kiss and make up. They are wonderful. Of course, you don't tell anyone who else will be there.

"Well, I had one of these parties, but Mr. Stevens wouldn't perform, he said he didn't want any reconciliation. So that's how I know he would not go back to his wife."

The divorce was granted.
